Diaz in Some Circumstances Would Take the Field.

AN APPEAL TO PATRIOTS

CITY OF MEXICO, January 22.-An interesting story in circulation regarding the probable outbreak of war between Guatemala and Mexico is to the effect that Gen. Diaz, president of the Mexican republic, will take command of the forces on the frontier in person. The report is widely spread in official gossip and is not without the range of possibility. In the higher circles it is held that Gen. Diaz will not leave his seat as chief executive in the pending difficulties, at least not until his presence is imperatively demanded at the know the state of the defense's feelings. front.

The general opinion of those close to the executive is that he will place the command finally in the hands of one of three men to push the Guatemalan invasion. These three officers are Gen. Bernardo Reyes, governor of the state of Leon and a general of a division of the Mexican army; Gen. Jose Vicente Villado, governor of the state of Mexico and general of a brigade, and Gen. Lovis Torres, governor of the state of Sonora and general of a brigade. Of these three it is pretty well known that the choice of the president is Gen. Reyes of Monterey, who is also the understood favorite of Gen. Diaz as his successor as chief executive of this re-

Reves taking command it is probable that one or the other of the remaining generals would assume direction of the campaign.
Should the conflict lead into a genera

Central American fight, or develop into unforeseen complications, it is entirely within the range of possibilities that Gen Diaz would then take the field in person with the probability of adding to his glory as the greatest military man of the present generation in Spanish America Should the president vacate his chair, the rext official legally authorized to assume provisional charge of national affairs would be the president of the senate, or, in case of recess of congress, as at the present time, the chairman of the permanent cengressional commission, who is named he first of every month.

El Tiempo, the opposition government organ of the church in Mexico, has come out for the federal power in the present crisis, and announces that by the side of patriotism no other issues are to be com-pared. It, therefore, buries the hatchet in strong editorial, eulogistic of the general government, and says it will not fight the administration until the close of hostilities, when it will again turn its attention to the oppression which Roman Catholics suffer in Mexico under the prevailing constitu-

Verdict Against Boston Store Set Aside by Court of Appeals.

The Court of Appeals this morning in the case of Fannie C. Ragland and her husband, Henry Lee Ragland, against Messrs. S. W. Woodward and A. M. Lothrop and others, reversed the judgment of the court below, and remanded the case for a new

mitted, in consideration of which the trial court refused the defendants' motion for a new trial. The plaintiff alleged that while engaged in making purchases at the store of Messrs. Woodward & Lothrop she was accused of sheplifting and procedured in the control of the contro accused of shoplifting, and was forced into a private room, where she was compelled to submit to a search of her person; being detained, she asserted, for two hours. The opinion of the court, written by Chief Justice Bingham of the District Supreme Court, who sat in the Appellate Court in the place of Mr. Justice Morris, is quite a lengthy one, and virtually holds that the plaintiff was entitled to only compensatory damages, but not under the proof to punitive damages. Punitive or vindictive damages or smart money, says the court, quoting Mr. Justice Gray of the United States Supreme Court, should not be allowed unless the principal participated in the wrongful act of the agent, expressly or impliedly, by his conduct authorizing or approving it, either before or after it was committed. Where the proof

does not implicate the principal, however wicked the agent may have been, it is enough to hold the principal liable in compensatory damages. Messrs. Woodward & Lothrop, the court holds, should have been permitted to show that they did not authorize their private detective or other employes to insult or unjustly treat their patrons, and they should also have been allowed to show that they had no knowledge of the occurrence until after it was over. The record in the case, explains the court, disclosed no evidence that Messrs. Woodward & Lothrop defended their private detective in the ter. Finding that the veridet returned included more than compensatory damages, and that testimony explanatory of the po-sition of Messrs. Woodward & Lothrop was improperly excluded, the Court of Appeals reverses the judgment below and remands the case to the court below for a new trial.

DISTRICT GOVERNMENT. Keyless Door.

Superintendent Henry R. Miles of the

telegraph and telephone service of the District of Columbia, referring to an order of the Commissioners for the purchase of ten keyless fire alarm box doors at \$50 each, today requested permission to expend \$400 additional in the procurement of the doors to enable the department to exchange eight of the boxes for which keyless doors were intended for new boxes with all the latest and best improvement, including the keyless doors. The prime reason for this exchange of boxes, it is stated, grows out of the fact that eight out of the ten boxes selected for the keyless doors are of an old pattern, in use as long ago as 1875, the doors of which are of different dimensions than are the keyless doors, and hence the keyless doors cannot be fitted to these oldstyle boxes. By the additional expenditure Superintendent Miles claims the District secures not only the keyless doors, but much better boxes.

Bad Condition.

Lieutenant Downs L. Wilson, U. S. navy, who resides at 1611 29th street, today called the attention of the Commissioners to the condition of 29th street between Q and Road streets. Lieutenant Wilson earnestly requests that this portion of the street mentioned receive the early consideration of the board, as at times, he says, it is in a most deplorable condition. Making Connections.

Sidney T. Thomas, attorney for the District of Columbia, has examined a letter from Mr. H. F. Hayden, superintendent of gies of the railroad people are put to the test. Luckily, the wind is not blowing, and he would be expected to take sides with he act of Congress, approved March 14, 1844 entitled "An act to make service conthe act of Congress, approved March 14, 1894, entitled "An act to make service conthe District of Columbia," which was referred to him by the Engineer Commissioner for an opinion as to who was responsible for the maintenance and repairs of such for the maintenance and repairs of such connections, covering the time between the date of laying the connections and the taking of water therefrom by abutting property owners. Mr. Thomas states that, in his opinion, the District of Columbia, and not abutting property owners, is to be at the expense of keeping in repair service connections laid under the act of Congress mentioned between the time of laying the mentioned, between the time of laying the connections and the taking of water therefrom by abutting property owners. Ordinances 406 and 409, in Webb's Digest, which were referred to by Superintendent Hay-den, according to Mr. Thomas apply to persons taking the water and relate to a period of time subsequent to the period mentioned, and have therefore no bearing in interpreting the act of Congress in ques-

Findings Approved.

Commissioner Truesdell yesterday approved the findings of the trial board in the following cases: Private A. J. Kimmel, fined \$25 for gross neglect of duty: Private T. E. Gordon, charged with neglect of duty, not guilty; J. R. Harrover, fined \$10 for neglect of duty; Private Patrick Creagh, charged with conduct unbecoming an oilicer, not guilty.

fireproof stairways in the Curtis, Abbott and Seaton school buildings has been extended forty days. Assault and Battery. The jury in the case of Chas. C. Herbert,

charged with shooting David Edmunds, a colored boy, at the Center Market on the 14th of last November, returned a verdict of assault and battery. Herbert, a onearmed watchmar at the market, shot the boy while attempting to arrest him, under the impression that he was a fleeing thief, and was charged with assault with intent to kill. Judge Cole remanded the defend-ant to jail to await sentence.

School for Ivy City. A large and enthusiastic meeting of the residents of Ivy City was held in the school house of that place last night. The object of the meeting was to lay before the Congress the necessity of a school building commensurate with the growing demand for greater school facilities. Col. P. H. Carson was called to the chair, but declined in favor of Mr. Hearns, who was subsequently elected president. Col. Carson was elected vice president and Miss Mary Lacey secretary. After several speeches were made advocating the necessity for a school building, a committee of seven tax-payers and property owners were appoint-ed to wait upon the Senate District committee and urge upon them favorable action in the premises. The following gentle men were named as the committee: Dr. C. B. Purvis, P. H. Carson, J. I. Thomas, Jos. Brown, R. D. Carter, C. W. Hearns and A.

ONCE AGAIN THE GRIP.

How the Old Enemy Operates and How He May Be Quickly Overcome. We may as well look the situation squarely in the face. Our old foe, the grip, has attacked us again. He has been aided by cold, damp weather, and the vile condition of the streets in towns and cities. Strong men and women are stricken down and tormented by the fear that even if they recover their health will, in all probability, be perm shattered.

This was the case in which Mrs. Ragland, then Miss Fannie C. O'Hare, sued the de-This is one of the worst things about the gripfendants for \$20,000 damages because of that it may leave the senses impaired and lungs, false arrest. Whisky as an invaluable aid in fighting the grip.

It is prepared with a view to combating those malarial influences which together go to make the power of our old enemy. A sneeze, a cough, a dull headache, with, probably, a little fever and some muscular pain, tell that the invader is at hand. You will soon find how wise you were to take Duffy's Pure Malt Whisky, for it stirs your blood so that waste matter is readily driven out, while well-digested food is turned to new tissue. This stimulant will keep you in perfect health, and no healthy person yields to the grip. It strikes only the weaklings.
